MEETING REPORT

Team Name: Error404   **Date of Meeting:**   Saturday 16/04/2022

Start Time: 11:20AM   **End Time:** 11:55AM   **Meeting Location:** Google Meet

Moderator: Kamil Ertekin   **Recorder:**   Ervis Sako

Other Members Present: Enes Vrana

Members Absent: Elvis Murati, Egi Jonuzaj, Anxhelo Saraçi

Topics Discussed:
1. We discussed how behind we are compared to the rest of the groups due to inactive participation.
2. Some basics on how to use Github and making sure we are using branches to prevent any overlap in information. Provided a resource from freecodecamp.
3. Went over the requirements file and break down what shall be done until next week.
4. We also went over the technologies we shall use for the project.

Decisions Made:

- Team leader will summarize the meeting to the group and mention the meeting for the next week.
- We'll be having more meetings on campus.
- For the ones who hasn't provided the Github username to provide it so team leader can add them to collaboration.
- Search on technologies which we shall use on the real estate website.
- Everyone shall try to answer up to 2.3 in the requirements file.

Tasks Assigned:
- **Find a unique feature for our real estate website that differs us from the rest –** All members
- **Everyone shall go over the requirements file and answer up to 2.3 –** All members
- **Research on the technologies we shall use -** All members
- **Learn Git:** All members
- **Documenting the meetings –** Kamil Ertekin
- **Any commits on Github will be double-checked by -** Ervis Sako, Kamil Ertekin
- **Read Lecture Slides –** All members

Time, Place, and Agenda for Next Meeting:

Next Thursday or Friday before the class starts. The meetings shall take place in campus.
